

CenturyStone

CONCRETE COATINGS & REPAIR SYSTEMS

- Full Concrete Restoration
- Unlimited Decorative Applications
- Commercial and Residential
- Protective Sealers and Top Coats

DESCRIPTION: CenturyStone Concrete Coatings use High Performance components and 100% acrylic polymer additives. Each System is specifically designed to provide high Strength, durability and versatility for repair and resurfacing of almost any concrete surface.

TYPICAL USES: Decorative Resurfacing of concrete, as well as restoration of concrete surfaces can be accomplished with a high bond strength and durability for heavy-duty applications in both Commercial and Residential Uses. Use CenturyStone Concrete Coatings to repair and/or resurface: sidewalks, garage floors, warehouse floors, bridge decks, parking garages, foundations, driveways, decks, patios, pool decks and many more applications.

METHODS OF APPLICATION: CenturyStone Concrete Coatings are applied by trowel, squeegee, screed, broom, brush, roller, etc.

FINISHES: Each application can be finished with an infinite variety of textures. From hard trowel or broom finish to *Customized Decorative Finishes*. Each application may be sealed and protected with a variety of finishing products (i.e. penetrating sealer, color stain, epoxy or urethane).

CUSTOM FINISHES: CenturyStone Concrete Coatings can be applied as a *Decorative Finish* by creating "natural" looking textures:

- Brick (including: Used Brick)
- Stone Tile
- Italian Marble
- Flagstone

PHYSICAL PROPERTIES:

CenturyStone Concrete Coatings are manufactured with High Performance Concrete Technology (*independently tested over 9250 psi*). The physical properties demonstrate strength *over 3 times higher than standard concrete designs*.

Compressive Strength, psi: 9,250

Flexural Strength, psi: 1,900

Shear Bond Strength, psi: 630

Tensile Strength, psi: 950

Abrasion Resistance: 1.7%

Impact Resistance: 4.85ft-lbs

SYSTEM COMPONENTS:

Dry Aggregate Blends

CS-100 Base (Gray or Natural)

CS-500 White Texture

Bonders and Sealers

CSR-1000 Concrete Bonder

CSR-550 Deck/Grout Stain (16 Colors)

CSR-600 Aqua Shield water-based sealer

CSR-700 Diamond Glaze solvent-based sealer

Crack Fill Kits, Acrylic-Urethane Top Coats and Elastomeric Water-Proofing also available.
